Thread: [Cipher Miner | XMR Miner | 0/38 FUD | BYPASS DEFENDER | C++](#)

**ShadowCipher** - July 23, 2024, 3:31 pm

## Cipher Miner

Cipher Miner is a powerful XMR miner that can run across multiple computers, maximizing your profit. Developed in C++, it's compatible with almost every Windows system.

Completely undetectable at both scantime and runtime, Cipher Miner seamlessly bypasses Windows Defender—no crypter required.

### Features:

Fully Undetectable (FUD) & Windows Defender Bypass

Unique Mutex: Ensures the miner only runs once, preventing system overload

Mine Over Proxy (Optional): Secure and anonymous mining

Adjustable Computer Usage (Optional): Control CPU usage for optimal performance and efficiency

Multiple Pools (Optional): Automatically switch pools if one goes down

Persistent Execution: Miner restarts automatically if terminated

### Scan:

[0/38 Scan Result](#)

### Pricing:

\$25 - One custom build with your preferred settings

Crypto payments accepted

### Note:

I am offering a few vouch copies to reputable members. If interested, post here. Also, I need a graphic for this sales post—if you can create one, I'd be happy to provide a copy in exchange.

**SIM-2362145** - July 27, 2024, 5:07 am

Dear any screens of the miner?.

**ShadowCipher** - July 27, 2024, 10:52 am

(Jul 27, 2024 05:07 AM)SIM-2362145 Wrote: [\[CITE\]](#) Dear any screens of the miner?.

I'm not sure exactly what you mean. The miner displays no screens. If you are asking for screenshots, there is really nothing to show. I am not offering a builder just yet, but hope to in the future. I could show screenshots of the process running in a process explorer if that is what you are

looking for. Just let me know, I'm happy to help.

**joeyjoe** - July 31, 2024, 3:12 am

do you have`it for Linux also ?

**ShadowCipher** - July 31, 2024, 6:53 pm

(Jul 31, 2024 03:12 AM)joeyjoe Wrote: [\[CITE\]](#) do you have`it for Linux also ?  
Not currently. Sorry.

**joeyjoe** - July 31, 2024, 11:33 pm

can i talk with you privately ?

**chormet** - August 1, 2024, 1:30 am

Hello

i like to have a vouch copy

Cheers

**ShadowCipher** - August 1, 2024, 7:22 am

(Jul 31, 2024 11:33 PM)joeyjoe Wrote: [\[CITE\]](#) can i talk with you privately ?  
Absolutely. Shoot me a pm.

(Aug 1, 2024 01:30 AM)chormet Wrote: [\[CITE\]](#) Hello

i like to have a vouch copy

Cheers

For sure. I'll shoot you a PM.

**BiggL** - August 1, 2024, 12:10 pm

Yo, this seems like it has a lot of potential, would love to leave a review if you'd like to swing me a vouch copy.

Otherwise, GLWS!

What is the hashrate like when compared to XMRig? Same speed? If yes, I'll buy it soon. Also, can this miner be crypted using Phantom Crypter without breaking? I was not able to crypt Pure Miner and Unam's miner with phantom crypter

**ShadowCipher** - August 3, 2024, 1:43 pm

Hashrate is equivalent to that of xmrigh. It should be compatible with phantom crypter but I have not tried it.

I sent you a PM.

**darkydarkyt** - August 6, 2024, 12:48 pm

cipher miner is fud? crypt?

**ShadowCipher** - August 6, 2024, 1:31 pm

(Aug 6, 2024 12:48 PM)darkydarkyt Wrote: [\[CITE\]](#) cipher miner is fud? crypt?

It is not fud. You would need to crypt.

**chormet** - August 6, 2024, 11:41 pm

output file is 64 or 32?

**ShadowCipher** - August 7, 2024, 5:48 am

(Aug 6, 2024 11:41 PM)chormet Wrote: [\[CITE\]](#) output file is 64 or 32?

Output is 64.

**civilgas** - September 3, 2024, 11:12 am

Looks interesting, sent you pm

This guy is legit & for real! :) I thoroughly tested this, and everything is up to quality standards, for a very good price, I would call it a steal!

>> Got the file, downloaded, WD is chilling, so far so good:

Spoiler [\(Click to View\)](#)

>> Next tested with windows 10 in a container (VM), executed the miner, still no issues, so far so good. (Test was done with max CPU usage, so do not be surprised about higher usage):

Spoiler [\(Click to View\)](#)

>> After that tested on a crappy.. spare.. but real laptop with WD up to date and Malwarebytes:

> Executed fine, did its thing and latched on explorer.exe to do the deed :) So works correctly!

Spoiler [\(Click to View\)](#)

After all of that, I did a night of mining executing the miner through a botnet with 500 loads as a final test X" for 24 hours:

Spoiler [\(Click to View\)](#)

I personally like it, and I will keep using it. If you are looking for a miner, I can vouch that this one is working well.

Good review bro. This looks interesting.

**svox1** - October 31, 2024, 5:09 am

I want to buy your miner give me your Telegram

**Sapcovski** - November 17, 2024, 3:43 am

Hello, could you please write me a private message regarding the miner?

**HexD** - December 13, 2024, 12:06 am

I'm interested in buying. If you're able to set to a certain CPU usage then that's a bonus.

**oliverbran** - December 13, 2024, 2:19 pm

i cant send you pm. can you send me your telegram, discord or something mate?

**woo097878781** - December 16, 2024, 2:03 am

How to contact you? I'm interested
