I run a LoL Coaching Community on Discord, below is everything we offer for only \$30 a month (Basically \$1 a day). Our Head Coach has a PhD in Sports Psychology as well as hit Challenger on 4 different roles so we know what we're doing.

Since starting this about 4 months ago now, I myself have already climbed from Plat to Emerald from his lectures alone.

I'm giving HF members a 20% discount and a 5-day trial. Just message below and I'll DM you a link to get in.

Just a coaching service to get better at the game. Some people just want to stop sucking and get that feeling of outsmarting the opponent with knowledge and not luck.
