Thread: [A website cloned and 1 script added](#)

dwalael - July 25, 2024, 9:45 am

I need somebody who can clone a website and add a php script.

I will tell you more details in a private conversation where we can also agree upon a price.

Ouh, I am the perfect guy for this.

I can clone the website manually changing the code up so I will not be detected as duplicate, and I can code pretty much anything you need with PHP.

Let me know if you still need this.
