Thread: [Delete Your Own Threads](#)

M?tt - July 31, 2024, 7:53 pm

I searched to see if this was suggested before, but I didn't see anything. I'll apologize in advance if it was and I missed it.

Anyway, I'm curious what would be the reasoning behind why we can't already do this. It's isn't a vitally important suggestion, but I was reading up on some of the news and I saw that Omni was thinking about doing a purge of old threads. I wouldn't mind deleting some of my old threads just because they're useless and serve no purpose anymore.

I can delete my own posts. But not threads.

Not sure if that is due to the Uber upgrade or the Vendor upgrade.

I think it's Ub3r, but I'm not sure either. I know it's a feature for Ub3r, but I'm not sure if you get that with V3ndor as well.

But yea, I would love the ability to delete my own threads. As some of them are old and no longer relevant

Omniscient - August 3, 2024, 12:25 pm

No.

I will not explain to you why.
