Thread: [LF Creative & HQ Designer - Fallen themed signature / banner / advertisement design](#)

Hackers - August 2, 2024, 10:38 am

Fallen - GFX Request

This is not a recruiting thread - we are looking for some Fallen graphic concepts and hoping to see some solid efforts from HF's finest.

We always look for talent, but we know that building great products & services require more than just code & marketing. Good UI/UX and design can carry a product far.

If you think you are fit for the job, feel free to share your work below or share your design for this theme:

Fallen, Technology, Money, Digital Services, Software

We are specifically looking for a signature banner / advertisement type of design.

Thanks to all who are you interested.

Is it ok to share my portfolio?

I have a good bit of my work up here and would like to see if you like any of the works that may go hand in hand with this
