With fall right around the corner, what upcoming horror movies are you looking forward to?

I can't wait until Terrifier 3- was hearing it will have more gore than the others. And Beetlejuice Beetlejuice as well.

Terrifier 3 is going to be good. I love the cult following that series has.

Trap came out the other day I'm looking forward to watching it.

I'm still in disbelief they are finally doing a new Beetlejuice

Smile 2 comes out in October. I'm stoked for this one.

Supposedly the strangers chapter 2 should be out by Halloween. I'm so excited for this one. I'm a huge fan of the series.
