Thread: [How to accept bytes for a sale?](#)

BingeFlix - August 6, 2024, 9:32 am

I made a sale for a small item and I accepted bytes as a payment. But when they go to give me bytes it says they have to upgrade. How do they pay me in bytes if they cant send them to me?

We don't allow non upgraded members to send bytes due to past abuse.
