For everyone who thinks [BRAND NAME REMOVED]/Dating Apps traffic is dead and doesn't work anymore, he bought the guide yesterday and already has 200 adds on Snapchat, no verification, no shadow bans, it's all about how you approach making your accounts, all shown in the guide.

If you're making \$1500+ / day then why are you selling the guide for 40 bucks?

There's \$1500+ days, not every day, there's days when I only make \$150-\$250, price will be bumped up to \$80 in October, why not make extra money when I know the ins and outs of this whole thing and make my life easier? I've done eWhoring for 6 years, I gotta switch shit up.

M0rticia - August 11, 2024, 4:14 pm

On the face of it, and for the price, almost looks like a good deal. But these days of saturation,

onlyfans, video verification on practically every app...it's a bold claim to make. If you're giving out any vouch copies, then I'd like to give a review.

(I'm actually quite experienced with EW, never mind the newb profile)

Undead - August 11, 2024, 11:22 pm

Interested in a vouch copy in exchange for a detailed review of this method.

Saturation only exists if you don't know what you're doing, there's always fresh meat on the market, especially in the dating world. I was never once required to verify/video verify with the way I make accounts, I gave out 1 vouch copy only though.

Received a vouch copy of this guide from OP. I believe this is a good guide for beginners who are new to eWhoring. It will save you time because OP has condensed much useful information into this guide. It briefly covers topics such as choosing the right pack and platform, sources of traffic, interacting with clients and ways to cash out your earnings.

It is well written and gets to the point without filler busting. Don't expect unique methods or some hidden fountain of traffic because no one is going to give that away but there is enough information for you to build on. The guide also doesn't go into specifics of everything but points you in the right direction. I have not personally tested some of the tools mentioned but I'm assuming OP will provide you support if you get stuck.

Thank you for the vouch, like you said, there are no unique methods or hidden fountains, those don't exist, it's all about how you use what's already out there, [BRAND NAME REMOVED], Reddit and so on, and put them to good use along with a proper, no word salad guide.

Yes, support for everything in the guide is available in the private group the guide comes with, appreciate you brother!

I received a vouch copy of this guide.

This is my unbiased in-depth review of the content provided.

This is a review based purely on MY thoughts.

I will NOT be held accountable for any purchase issues, disagreements, refund requests etc.

Grammar Of 1stAlucard's Guide: 10/10

The grammar throughout this entire guide is good. A few spelling errors, but nothing to worry about and not a big deal at all. I did not come across any missing words, and punctuation through out the guide made it a lot easier to read. This guide is a very user friendly guide to read, and anyone who can read basic English won't have any issues completely understanding this guide.

Content Of 1stAlucard's Guide: 8/10

The content in this guide is definitely good. The guide is a very long document and has different chapters which makes it easier to follow. There are also a lot of direct links within the guide which makes it easier when having to navigate, and there is also a good amount of screenshots and pictures to help the buyer understand and learn the information better.

This guide is a great starting point for users who are wanting to start their adventure to making money by E-Whoring and is overall definitely based at beginners. I don't think people with experience will gain a whole lot from this guide, but if you're a complete beginner with no experience, then this guide will definitely help you and guide you in the right direction. You will need to put in the work in order to see results, and you may choose to invest some money to speed the process up, but an investment is not required whatsoever.

Originality Of 1stAlucard's Guide: 8/10

After reading through the guide, I think the method is fairly original in the fact that everything is explained step by step and I think that's really different to a lot of other guides, as some others that I have read definitely feel a lot more rushed. You can tell that time and thought has gone into this guide. I personally have seen and I am familiar with some of the information in this guide, however, I have read a lot of different guides over my time here and as I said above, if you're new to the game - you are definitely going to learn a lot of useful information that will help you start up. 1stAlucard is also a friendly guy, who is very approachable and will answer all your basic questions and concerns you may have.

Layout Of 1stAlucard's Guide: 9/10

The layout of this guide provided by 1stAlucard is great as I mentioned above. I had no problem at all following the guide and I always knew and understood what I was reading. The chapters definitely help navigate your way through the guide and the different pictures and screenshots help too as it breaks up a lot of the text to make it easier to read. The download is very small, and can be accessed on PC or any smartphone. The font and colours that are used throughout the guide is very clear and very easy to read.

Overall Thoughts Of 1stAlucard's Guide: 8/10

My overall thoughts on this guide is definitely all positive. Everything is easy to access, it is easy to follow, and is in-depth. It is super beginner friendly as I mentioned and I can see buyers learning a lot from this guide and with a bit of work, I can definitely see potential in regards to making money. You can tell that 1stAlucard has a lot of experience within the area and therefore has a lot of knowledge regarding the topic. He is approachable and is friendly which always helps too, as I am sure he will answer any basic questions you have before purchasing the guide.

Quick review, I purchased this guide to get back into eWhoring, I did some eWhoring in the past but all the methods I used stopped working, traffic from [BRAND NAME REMOVED] most of all, my Snapchat accounts always banned, so I just gave up. Came back a month or so ago looking to start up again and came across this, looked good, so fuck it, \$40.

This is the best bang for buck guide on the forums IMO, I've purchased several other guides on

here, more expensive, and less information in them, none of them come close to Alucard's guide.

Let me tell you why, he doesn't waste time talking about hypotheticals and padded out content to make the guide longer, it's all raw guide meat for the sole purpose of getting you to be profitable in eWhoring.

I started earning again, got like 120 adds on my Snapchat on the second day from [BRAND NAME REMOVED] alone, plus the methods to get the people to trust you and milk them are priceless TBH, no other shares this much information about how to actually interact with customers and get them to give you as much money as possible.

For me this is a 10/10 guide, it works for beginners, and people with experience that have done this in the past too. My opinions are my own.

after buying the guide i can say it was well worth the 40\$. Im definitely making my money back and it

came with 4 unsaturated ewhore packs and a ton of good info in the guide itself as well as a community discord server where he will answer all your questions. This is unbiased and not a vouch copy.

10/10 could be faster on delivery time but you cant be active 24/7 so i understand that

(Aug 11, 2024 09:05 AM)1stAlucard Wrote: [\[CITE\]](#) I will keep the guide updated with my latest findings and methods, it still works to this day, I've had days of over \$1500 using this.

There is no filler content, you've got about 30 pages of good content explaining everything from start to finish.

Starter Guide is \$40. [Click Here to buy the Starter Guide](#)

1on1 Guide is \$400. [Click Here to buy the 1on1 Guide](#)

First, start a Contract with me, UID 5534213. Once payment is complete post your Payment ID & Gmail address in the comments.

[Start Contract](#)

Payment Proof, \$1500+ in a Day

Starter Guide includes access to the private Discord/Telegram and consists of:

- 0 to 100 eWhoring hand-held guide for beginners.
- My personal eWhoring packs to get you started, good ones, not saturated bullshit.
- All 11 of my traffic methods, all still proven to work.
- Teach you how to send working Snaps in 2024, yes it still works.
- Teach you how to Social Engineer your clients to do whatever you ask of them.
- Show you the best way to get paid via online platforms.
- Discord/Telegram access & support forever.
- Automation for passive income.
- Double/Triple dips, even goes further if you play your cards right.

1on1 Guide also includes:

- all from the Starter Guide plus my time whenever you need it on Discord/Telegram, I can help you setup your traffic sources, payment methods and whatever else you might need, no exceptions. I will share some things I've learnt after eWhoring for 6 years that will make your life 5 times easier while eWhoring.
- I'll teach you how to keep 100% of the profits you make, getting the money into your pocket usually costs 10%-15% and going through shady people, you will keep 100% of what you make with this method, no shady people involved. Nobody else on HF offers this.

If you set everything up correctly, you can start earning after about 4 hours at the earliest.

ToS

1. Sales are final.
2. No sales trashing.
3. No leaking/reselling my guide.
4. I only accept cryptocurrency.
5. Terms can change at any time. Reviews

For everyone who thinks [BRAND NAME REMOVED]/Dating Apps traffic is dead and doesn't work anymore, he bought the guide yesterday and already has 200 adds on Snapchat, no verification, no shadow bans, it's all about how you approach making your accounts, all shown in the guide.

Can't edit the thread anymore, just wanted to share that people keep earning with my method.

Stanley - November 27, 2024, 4:58 am

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley
