Anyone managed to play it yet? This is genuinely my first time hearing about it and I'm shocked its pulling in these numbers whether its just the normal 'hype then dies out' still a huge achievement. Unless I'm living under a rock which I assume I am, If you've played it how is it so far?

Yeah, Currently watching a playthrough lmao. first 2 minutes into the video it's giving souls(ish)/Flintlock vibes but most definitely a lot easier to grasp it seems

Heard about it and saw some demos, looks amazing, but I'll probably not play, I kinda lost interest in video games probably being older, unfortunately

Just saw some videos, looks like a amazing game. Definitely has that Souls games vibe to it.

Haven't heard of it, but will definitely have to look into it and see what it's about.
