Thread: [Would you rather have the ability to fly or the ability to teleport?](#)

Portugals - August 24, 2024, 5:54 am

I wish I had the ability to teleport because flying in winter would be very difficult and cold :)

Aeowulf - August 24, 2024, 6:22 am

Teleporting would be legit. Flying too. Fk the cold, I'll dress appropriately.

I'd take either one TBH.

Blockonome - August 24, 2024, 6:40 am

Teleport easy, would take too long to fly places.

TECNOS - August 24, 2024, 2:30 pm

I would prefer teleportation, mostly due to severe vertigo.

Deany - August 24, 2024, 2:31 pm

I'ma go with teleport bc I'm lazy to fly

Lil Buddy - August 24, 2024, 3:49 pm

Teleport so i can rob a bank like the movie jumper.

Jamika - August 25, 2024, 1:41 am

Why spend time in flying while i can teleport from place to another?

Snowwy - August 25, 2024, 2:23 am

I would have to say teleport definitely - should save quite a bit of time I would say.

Beherit - August 25, 2024, 4:43 am

Both can be tricky if there are witnesses. Teleport is a bit more natural and you can blend as if you were there all the time.

sebn - August 25, 2024, 5:23 am

teleport

i would teleport to your mom to say hello

Eran - August 25, 2024, 11:02 am

Fly tbh, I'm going to outer space!

Badge - August 25, 2024, 11:30 am

I'm needing some more context, how fast can I fly? and with teleportation can I teleport anywhere in the world or am I like nightwalker who can only teleport to where he can see?

if its based on anywhere I can teleport then I guess I'll do that, purely because as [Beherit](#) said flying is so risky you'll get spotted within the first 3 minutes

else - August 25, 2024, 12:13 pm

Teleport, being able to go anywhere within a blink of an eye(I would assume)

The amount of memories you could create, it would be amazing. Even for small things, like going to an event, you avoid all traffic.

nd684d - August 25, 2024, 12:15 pm

Teleport all day! Flying would be great of course - but I mean still time-consuming. Teleporting would be instantaneous, back for dinner kind of thing lol

Yes flying is a mode of travel and teleport shortens the travel. If I wanted to save someone falling, rather than flying I would teleport to them mid air and just teleport them back on the land.

Kob08 - August 28, 2024, 3:33 pm

As a person who's scared of heights I'll take the teleport. Especially if you wanted to go to the other side of the world, no chance I'm able to fly more than an hour

Zalbai - August 28, 2024, 3:38 pm

Teleport, of course. No thinking. I really enjoyed the movie Jumper.

Teleport.

I remember I saw that movie years ago ??

Yanix - August 30, 2024, 5:34 am

I would love to have the ability to instantly teleport anywhere and every time I want to. I always remember the movie JUMPER.

Nathhann23 - September 8, 2024, 11:54 pm

That's a good question im gonna say teleport because it's slightly better

Luiville82 - September 9, 2024, 7:15 am

Teleporting anywhere would be better than flying. Flying is time consuming and cold.

I would rather have the ability to teleport; less work

sector - September 9, 2024, 8:59 am

i would pick teleport if i knew more about how it worked..

cause i dont wanna tp to somewhere only to appear in outer space cause i didnt account for earth's orbit around the sun

so i guess im going with flying

Kyrus - September 9, 2024, 11:03 am

I could care less about flying. You might end up being a test subject for human experimentation.

I choose teleporting. Idk how many times I stayed over at people's house just because driving was a pain in the ass. Mostly because of not sleeping and doing drugs but still. Traffic is a bitch.

zjjj - September 10, 2024, 7:28 am

The ability to teleport, of course.

diablospartan - September 11, 2024, 7:24 am

My man i would choose to teleport myself ,imagine teleporting inside mondial bank with 2 bags ,full them with money then teleport back into your room :))))))

RangoWorld - September 11, 2024, 11:31 am

Teleport. I'm too lazy to fly. I know I will fly a few times and it will get boring and tiring very soon.

With teleportation. I would be able to go anywhere in a blink of a second and that is a lot more fun.

What makes you think that if you teleport you can take something with yourself? Maybe once you and everyone else who said teleport will end up fully naked once they teleport.

Flying sounds as more interesting experience, seeing stuff from sky. You get diarrhea, you go 200m in the sky do your stuff and let the wind do rest.

Well your thing also sound great but my idea would feel better as having 2 bags full with \$paper in your hand .Just imagine the feeling

UltraexTrader - September 13, 2024, 5:36 am

I'd like to teleport, why waste time flying when you can just teleport there :D

johnsmith57365420 - September 13, 2024, 9:12 am

Dude, you could teleport and freefall ?

Pancake Boat - September 13, 2024, 2:56 pm

Fly.

If I could teleport I would become so fat.

milioni - September 14, 2024, 4:02 pm

Ofcourse teleport because it more faster and impossible at the moement.

earacvent - October 2, 2024, 10:40 am

Teleport, I'll just fuck some shit up and get back in my bed.

DemonAsylum - October 2, 2024, 10:44 am

As cool as flying would surely be, teleporting seems way more practical. The main thing you think of with a question like this is getting from point A to point B. What's going to get you there faster? Teleporting of course haha.

Jake Johnson - October 21, 2024, 1:59 pm

Either one would be good but I think teleporting would be the best option as you could get anywhere instantly.

Envy - October 21, 2024, 2:00 pm

Teleporting sounds a lot quicker than flying everywhere, so there's my answer.

Pimping - October 21, 2024, 3:09 pm

For sure teleporting that would be amazing hahaha

?ystem - October 21, 2024, 3:21 pm

This is a damn good question and one I've been debating with myself for a very long time, and I've settled with teleportation. I mean, if you mastered teleportation then you could technically obtain flight by just doing teleporting X amount of times in a row.

2xTheTap115 - October 22, 2024, 11:35 pm

Teleportation. You are more likely to be shot down while flying than teleporting ? This sad fact speaks for itself.

ahw9n2io8wd9h - October 22, 2024, 11:56 pm

Teleport.

If military spots you flying you'll have to deal with fighter jets, TP on other hand is unstoppable.

Momentum stays through teleportation, so you'll rack that up by teleporting X amount of times in a row mid air then *SPLAT*.

DanielZ - October 23, 2024, 12:52 am

why would anyone want to fly when he can teleport on the clouds and make sky diving? ?

sharn - October 23, 2024, 2:34 am

Teleportation would be my choice, as it allows me to instantly travel anywhere, be it for work, holidays, or simply to avoid the trouble of long travel times.

Jinu - October 23, 2024, 2:37 am

Teleporting would be awesome! I'd definitely go for that too. Imagine avoiding traffic and long flights altogether. Plus, like you said, flying in winter would be brutal. Teleporting anywhere, anytime sounds way more convenient! What would be your first destination if you could teleport?

But they could trace you when you spending the paper.

host3r - October 23, 2024, 3:17 am

Teleport would be awesomest, could go anywhere i want

Np, I know people that buy dirty money for 60% the price.

ariluvs - May 18, 2025, 8:04 pm

teleport, flying wont do anything but get me shot down by the cia

Spherix - May 18, 2025, 11:40 pm

Any time someone mentions teleporting I picture the movie Jumper. Would be awesome.

Trakko - May 19, 2025, 6:49 pm

teleport is the only correct answer here
