Thread: [\\$3 In A Crypto Of Your Choice For 30 Seconds Of Your Time \(USA\)](#)

Kaleb - August 24, 2024, 8:31 am

You must be located in the USA and either have an active account on FreeCash.com, or be willing to make one. I'll also need a vague idea of where you're located in the US (as simple as Midwest, is fine) or the exact state if you don't care.

Will take about 3 minutes of your time at most.

I'll cover fees on the Crypto, preferably one that's listed on Coinbase or Kraken if you can. I'm simply trying to verify if a certain offer is available in certain markets.

You'll literally just need to either: login, search, report back. Or register, search, report back.

I'll try to check this frequently, only need one person and I'm doing this first come first serve, if you do take up the contract please try to reply to this thread so others dont.

You seem mistaken. It's not a kind act. I need some data gathered and I'm paying people for it.

EDIT - Gotten what I needed.
