Thread: [Astolfo Loader / MASS LOADER / C2 / NATIVE / C++ STUB / GO SERVER / 50\\$ BUILDS](#)

AstolfoLoader - August 25, 2024, 10:19 am

Astolfo Loader (Jinx V3)

NOW IN C++

VIDEO: <https://streamable.com/gv548j>

Me and another person bought the source of Jinx Loader V2 from Ren and im rebranding to bring you guys an improved and more stable experience keeping the Web panel in GO but moving the stub over to C++ decreasing size from 5.5mb - 120kb X64 and 110kb X86.

Price

Price will be quite different

Similarly to XLoader the Panel will be hosted on my server's and you will simply pay for

1. Entry Fee only for first purchase about 150\$
2. Monthly hosting cost 100\$ a month
3. Per stub there will be a price each stub will come crypted unless stated differently about 50\$ each

To purchase Please PM me here or on telegram
t.me/AstolfoLoader

Vouches

Vouch copies are available if you crypt them yourself or you can use startup stub that jinx loader used

i can confirm im one of the buyers of source go to @rendnza on telegram to verify
i accept cooligan :p

ANY QUESTIONS FEEL FREE TO DM ME <3

^^ not spamhaus logged ip LMAO

Py_Dev - August 25, 2024, 2:06 pm

Very interested in trying this bad boy out. Lmk

AstolfoLoader - August 25, 2024, 9:26 pm

Rendnza was nice enough to make a group with there @ and put the official buyers names on there @Rendnza t.me/Rendnza

magichack3r - August 26, 2024, 2:49 am

I can try it and make a review... it looks like it is an excellent job

AstolfoLoader - August 26, 2024, 6:22 am

ill pm you guys <3 or message me on telegram

PureCoder - August 26, 2024, 7:12 am

The product looks solid, wishing you the best of luck with your sales

responded before you posted this <3

AstolfoLoader - August 28, 2024, 9:54 am

ill send scanner.to when it comes back online

Omniscient - August 29, 2024, 9:11 am

This image takes forever to load from that host....

<https://i.ibb.co/Z2xWVwJ/Astoflo-Loader.png>

Suggest you move it to imgur probably.

Please note that once it's loaded, it's fast but that's because of cache. Any new viewer of the thread is gonna have to wait 2-3 mins for that image to load. That's not the results you want.
