It would be better if we reduce this for our health, brother

Let's continue using it then

banefuldrummer - August 29, 2024, 9:51 am

Nah man i would definitely not. Full of shit.

MishaOMBr - August 29, 2024, 9:53 am

Not really. I drink a lot of black coffee and kvas. Cola always leaves a really sickly aftertaste in my mouth and makes my teeth feel... Itchy?

No sodas for me. I'll drink a can maybe once a month, not even that.

You are really doing your best

No sir, I'm not a big fan of drinking cola. Will I drink it? Occasionally, but its not something I will pick up while at the store. I mainly drink natural fruit juice, or water.

Yeah, I sometimes drink cola.
It is my top choice for a soft drink.

I love coca cola... But I've stopped completely drinking sodas for improving better health.

I drink sugary drinks but never watched how much. I think like 78% of sugar comes from a can. I wouldn't want to continue it. Maybe sweet tea once in a while. Is sugar sweet?
