Thread: [PBR Dividend](#)

Omniscient - August 30, 2024, 10:42 am

The last eight dividends paid by Petrobras (PBR) are as follows:

1. August 23, 2024 - \$0.3864 per share
2. June 13, 2024 - \$0.3953 per share
3. May 3, 2024 - \$0.6736 per share
4. April 26, 2024 - \$0.4362 per share
5. November 22, 2023 - \$0.5500 per share
6. August 22, 2023 - \$0.4672 per share
7. June 13, 2023 - \$0.7698 per share
8. April 28, 2023 - \$1.192 per share

These dividends reflect Petrobras' regular quarterly distributions, showcasing the company's commitment to returning value to its shareholders.

So that's over 10% and as high as 15% annually. Margin at Robinhood for example is 6.75%. I just bought \$750 worth on Margin (50 shares @ \$15.16). Let's see how it goes. If they can maintain at least 10% dividend I'll earn at least 3%.

I have a personal affection for dividend yielding stocks. I've done well typically with them. Many of the good ones are in energy or real estate (REITs).

Anyone else have a good dividend stock they wish to share?

Truth - August 30, 2024, 11:23 am

I prefer selling naked put options and covered calls if assigned to collect yield on a stock, but for pure div plays I'm looking at some Real Estate stocks now that FED is looking to cut interest rates they might recover a little, NLY and ARR look like worth the gamble, NFA of course.

How are these holding up? I don't see a September or October yet

I've been on MPLX for a while, have you looked into it?

Omniscient - October 12, 2024, 3:22 pm

I still have the shares. Will look into MPLX asap but dividend is only 7.7% vs the 15% I get with PBR.

Stanley - November 1, 2024, 4:59 pm

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

22nd October set a limit order of \$13.86 at the start of October when the price was \$15.00 I figured it would be unlikely to drop that much, well turns it did and then some in a just few weeks lmao.

I have stocks in SU which has done very well for me, by far my most successful stock. I wanted to add another oil stock to my portfolio and one for room to grow which why I went with PBR as opposed to the bigger players.
