This is something that I have been doing in the past and it is fool-proof. When I have free time I'll still jump on the grind to make some extra money on the side, because there is no such thing as too much ?

Basically we will be selling high quality aged accounts, specifically Snapchat and Reddit. Why these 2 platforms? Because the market is the biggest for these 2 social medias. They are always in demand, especially in the eWhoring community.

I don't see this method saturated any time soon, if ever. No start-up investment is required at all. You can do this from your phone or your computer. It is scaleable and later on you can automatize things. The only downside of this is that you will have to wait some time until you can start making money. Let's jump into it.

S N A P C H A T

You are basically going to create blank snapchat accounts and verify the email and phone number. This part should be pretty easy, you can always get free temporary SIM cards, or find offers for free ones, or if you really want you can buy them in bulk, they are dirt cheap.

The accounts will need to be aged for a month minimum, but preferably more if you want to increase the price of your accounts.

The accounts will also need snap score and I am going to show you how to get it pretty fast. What I personally did is share my username in a bunch of chat rooms and the requests came in flying. After you get about 20-40 friends, you will use the Multi Snap feature to boost your snap score. Go to the phone screen, tap the + icon, and tap on Multi Snap. You are then going to send the max 8 snaps to ALL of your friends. Rinse and repeat and your score will grow fast. To avoid getting shadow-banned, I recommend getting a max of 5k score per hour. Do this until you have about 25k score which is more than enough that you need to sell.

Now, we have an aged account with some snap score. But, how do we make our accounts even more valuable? Easy. Since most of the buyers for these accounts are using it for eWhoring, you will once again share your username in adult chat rooms and accept all friend requests. When you're

selling the accounts, make sure to add that you have xy number of friends that are in the adult niche, this will boost the price.

On average these accounts go for \$15-\$30. You can create and farm as many accounts as you want.

After you have a solid stock ready, it's time to sell. Finding buyers will be easy. You have HF and a bunch of other forums. I can also recommend joining eWhoring telegram groups, people are always looking to buy.

Once you see how fast these accounts sell, you'll be farming hundreds of them!

R E D D I T

We will be doing a similar thing with Reddit. You will create the blank accounts and verify the emails. This requires a bit more time and effort than with Snapchat, but the accounts sell for a higher price. You are also going to let your accounts age for a few months. In the meantime, you will need to gain karma. Karma is basically a points system on the social media, with every upvote you get on your thread or comment, you gain 1 karma. Ideally we will aim to get 5k-10k karma. Try to diversify your karma, because there are 2 kinds of it: post karma and comment karma. Post karma will be easier to get since you will be creating threads that a lot of people will see, whereas with comment karma you have to put in more effort and comment on a lot of threads so people can see it.

But how do we get karma? Well, Reddit is huge, and you can use your imagination. The easy way would be reposting memes from meme subreddits. Make sure to post memes related to the sub-reddit you're posting in, like weed memes in weed subreddits etc. Another easy way to gain karma is by posting in NSFW subreddits. The adult subreddits are HUGE on the social media, so you can basically get an ewhore pack and post them in as many subreddits as you can. This is not only good for karma, but you will gain lots of followers on your account which will increase the price of your account! Once again, in the end when you're selling them, make sure to mention that the followers are adult niche, since once again your buyers will most likely be purchasing the accounts for eWhoring.

Now you have an aged account, filled with karma and followers, ready to sell! These go for \$25-\$50.

The key here is to think big and stay persistent, and always scale your business. If you can hustle for a couple of weeks and gain the needed snapscore/karma/followers, then all that is left is for time to pass and let the accounts age. After you establish a name for yourself, more people will trust you and choose you as their supplier.

As always, if you have any questions regarding this, don't hesitate to reach out. Enjoy!

Thanks a lot for the info. I've been pretty curious about the process of 'aging' accounts to sell. I'm feeling pretty inspired now, thanks again!

I am curious if there is a point in even creating these for other than eWhoreing? Or is that that just more successful?

I've just been adding 'perfect for eWhoring' in the selling info. By the looks of it, most of my buyers needed these accounts to better their eW game. You can be creative and add your own twists.

Report back in a few months when you sell some accounts!

I'm not selling anything here, simply sharing a method that I used for some time. I can post random payments I've received, I don't know which ones are from which project, so it's pointless. But you see people looking to buy these kind of accounts very often, so it's not hard to realize these accounts do sell pretty easily.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

Hey my friend!

Great advice. Can you tell me how I can get all these numbers I need to verify?

Morphh - January 22, 2025, 2:02 am

I will try this, aging accounts are super easy but I'll let you guys know how easy/hard it was to farm karma.

Posting memes and engaging in crypto subreddits right now is the easiest way to gain a fuckton of karma. It's a hot topic.

Great thread mate.

I like the retheme. Personally I won't be using the method but I can see it can make money
