Thread: [Looking For Long Term Stack Developer](#)

HardRock - August 31, 2024, 1:50 am

As the title says, I am seeking a stack developer to work with me on small to big projects for the longer term.

Technologies:

Linux

Bash

PHP

C++

c#

JS

HTML

Node

Python

Reverse code or nulling

Only experts, please.?

You can charge me based on the task. Please don't ping me if you plan to charge a lot for small work.

You can send me your discord or telegram. We can start right away.

Payment method: USDT or other crypto

Regards,

???

Can you please send some more details in PM?

techpacket - September 1, 2024, 10:30 pm

Hi greetings.

I am ok with the languages you are seeking, but you did not elaborate on the work. You can contact me

I am sending you details via PM.

I am still looking for a more serious and long-term coder.

Thanks.
