Just be you, post around, and eventually you'll learn things, and just try to be helpful to other members.

We recommend you take the time to read the [HF Help Documents](#) section. The answer to your questions should be contained in there.

^ Start with reading this, as it can help prevent bans or warnings.

Hello, welcome to HF

Feel free to tell us more about you, why did you register on HF, what are you looking to learn ? You want to learn about the culture of hacking ? What do you mean, like movies ? series ? famous hackers ?

Please take the habit to give more info so we'll be able to give your better tips

You can contribute sharing your knowledge, work (if you're a programmer and developed personal tools), there are many ways to contribute

Don't forget to read the [Help Docs](#)

It depends. Why did you joined this site? Did you wanted to learn about hacking anything particular? About games or about money? Or just to hang out?

Almost everything is available on this forum. The community is very welcoming too. Use the search bar to your advantage and just explore to see what knowledge is available of benefit to you.

Welcome to HF buddy and good luck.
