Thread: [\[Open Source\] Proxy Scraper PoC + Free Lists for Scraping](#)

Miracula - September 8, 2024, 10:36 am

Here are some great websites you can use for proxy scraping:

- [github\[.\]com/proxify/free-proxy-list](#)
- [proxyscrape\[.\]com/free-proxy-list](#)
- [socks-proxy\[.\]net](#)
- [spys\[.\]one](#)
- [free-proxy-list\[.\]net](#)
- [sockslist\[.\]us](#)
- [free-proxy\[.\]cz](#)
- [openproxy\[.\]space](#)
- [freeproxy\[.\]world](#)
- [proxy-list\[.\]download](#)
- [proxynova\[.\]com/proxy-server-list](#)
- [proxydb\[.\]net](#)

To get the link remove the square brackets.

Thought about posting this list yesterday, but realized it would be too lq, and decided to create a quick proof of concept proxy scraper in C# .NET.

- Example GUI

- Source (I couldn't figure out how to add attachments, uploaded to pastebin ?)

Main.cs available at: <https://pastebin.com/VLK5t8UL>

Main.Designer.cs available at: <https://pastebin.com/LnGcvWXb> - I've used an icon, line 275 will throw you an error without an icon in the resources named "Icon"

Main.cs is the form, so the only modification you need to bring to Program.cs (in case you are using a new WinForms App) is

```
Code Application.Run(new Main());
```

I will not provide binaries / archives, as I am new to the forum and would like to avoid any false accusations.
