Thread: [Telegram Group to group adder](#)

Regan. - September 18, 2024, 11:44 pm

Would anyone be able to provide me with the correct services on Telegram.

I need members from other groups of my choice targeted and added to my group. They need to be active in the last 2 weeks or so.

There are services to sell members for telegram groups.

But,

I have not seen anyone selling members from YOUR choice of group and to yours. Isn't it like stealing members from other group ?

Or,

Maybe you can just run targeted ads within Telegram to attract members of specific group or niche to yours.

I can scrape members and add them to your group. I can do a small test for you before you want to buy. I only deal onsite.

My Telegram: @bronzegods
