Thread: [Make Your Product, Song, or Brand Viral On TikTok With UGC Farm](#)

Childs Play - September 20, 2024, 3:37 pm

THIS IS A ONCE IN A LIFETIME OFFER THAT I WILL NOT BE OFFERING FOR LONG

What This Is:

- This is the ability to post unlimited TikTok organic content videos via our proprietary software and device farm.
- This is literally unlimited impressions at your fingertips

What About Shadowbans?:

- Our uploads don't get shadowbanned.
- We have a content repurpose software that gives us the ability to post unoriginal content over and over again with no detections.
- Nope you heard it all right. No one else can do this at the scale we can.
- We've invested hundred of thousands of dollars into this operation. We have deals with several major record labels, distribution companies, publicly traded companies.

Why?:

- Because we can literally post unlimited amounts of organic content. If you are a digital marketer or business owner who has any kind of experience than you know how powerful this is.

Why I'm Even Offering This:

- I need start up capital for our next venture before we cut this off and use it completely in house. We are only doing this for a very few select companies at the moment.

Pricing varies depending on needs (if we are supplying content, how many posts you need, etc.)
