What country are you providing the Netflix from to have no geo lock guaranteed, even Egypt (one of the only country known right now with no geo lock sometimes does other types of locks not GEO). And what about revoked subscription, Netflix has been removing subscriptions without refunding if you are caught abusing region. What is your guarantee/support for this? Thanks

what do you mean by this in contract terms? "No refunds applied once subscription is delivered"
What if the subscription is removed or revoked?

Sounds good, I've sent the payment through your site and forwarded you the transaction ID. Idk why it's marked as complete on my end but I'm just waiting.
