Thread: [Halo - Call Of Duty - Gears Of War](#)

There was a beautiful time in console gaming when these 3 games were amongst the most played and with seemingly everyone being glued to at least one of them. Which one or more of these games applied to you like that and if multiple, what order would you put them in for your favorites?

I'm going back to those days for my answer.

Online - Halo

Offline - Gears of War

I loved the campaign and horde mode of Gears. I didn't have internet when I played back then, so those were the only two modes I played. Online though, Halo was my addiction.

Now a days.

Call of duty all the way.

Played all of them.

- Call of Duty

- Halo

- Gears of War

Yeah I was super big on Halo / GoW and then after I got a nice taste of CoD, it started to take over big time.

It was great back then. I forget which one I played, I think the first one, but it was pretty much.

I remember I was really into Halo 2 at the time, Gears came out and everyone left for Gears.

My favorites out of that group are definitely Halo and Call of Duty. Especially Halo 2/3 and Modern Warfare 1/2. Just absolutely legendary games, and they still hold up today. I still play master chief collection from time to time. My younger self definitely never imagined I would be playing those games on PC one day. Gears was pretty fun, but compared to the others, I didn't keep up with it as much.

I see. I never actually played Halo 1 or 2, just Halo Reach and Halo 3. (Halo Infinite as well, but don't care about it really).

2 is my all time favorite, but game play wise 3 and reach were so OP.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.
