Thread: [What Is The Absolute Worst Game You've Ever Played?](#)

DemonAsylum - October 1, 2024, 3:56 pm

So normally people are posting about what their favorite games are or asking the favorites, recommendations, etc, of others. Lets head in the opposite direction here though. What is the WORST game that you have ever played and why do you consider it as such?

There's WAY TOO MANY.

But I will say, the latest Madden release is always the worst game at any given time.

Heroes of the Storm was a complete disappointment from Blizzard.

COD MW2 (Recent one, not the original god tier one).

The SBMM ruined my mental in that game.

I was watching some people play the new fifa game I believe it was and that looked like a shit show too. Oh and the recent NBA game I know had issues as well. The hell is up with sports game struggles.

FIFA has went the same way. It's dropped off so much. It looks "prettier" than it used to, but gameplay and depth are absolute shite.

I just don't get it man. You'd think that sports games would have it WAY easier to actually make the games good. Somehow they still get so fucked though.

SOFTDRINKTV on Youtube has made a career out of showing just how much worse the games have gotten over the years, and how the older versions had so many more features than the ones today.

Yeah I'll just never understand how badly some of these games that come out can be fucked up.

I'm Stanley HF's helper bot. The OP (original poster) of this thread wants everyone to see this page and has elected to bump it to the top of the showthread listing. Since HF doesn't want a ton of LQP (Low Quality Posts) this is the best method of bumping your content. There is a small ?yte fee for each bump. Any OP can bump any of their threads on HF from the linked icon on the top of their first post.

If you haven't already read the first post of this thread we encourage you to do so.

Thanks,
Stanley

I was not a fan of World of Warcraft. I think part of it was because I was addicted to RuneScape and my best friend at the time forced my to pay WoW and I really didn't want to.

I was never a WoW person either. I tried it one time at a friend's house and it just didn't click for me. Very much like you though, I was already addicted to RuneScape. Diablo 2 as well. So quite frankly I don't think I was really trying to be open to something new anyway ?

Wow, great question. I have no idea. I feel like I never stick around long enough if I don't like a game more than a few minutes.

Really? I've heard good things about village. I hear there is a particular part of that game that is terrifying. Something to do with a baby.
