Thread: [Good Romance Animes?](#)

oRequiem - October 1, 2024, 7:23 pm

I'm looking for some good Romance animes, but can't think of many that interests me.

Ones I've seen so far:

- Darling in the Franxx (Kinda Romance)
- Alya sometimes hides her feelings in russian
- Your Name.
- A Silent Voice
- Future Diary
- Love Chunibyo & Other Delusions!
- The Angel Next Door Spoils Me Rotten
- My Happy Marriage

That's as many as I can think of off the bat that I've seen.
What would you recommend?

Horimiya

A Sign of Affection

Insomniacs After School

The Dangers in My Heart

Teasing Master Takagi-san

Wotakoi

Idk how I forgot to mention that I've seen THE DANGERS IN MY HEART and Horimiya.

Great ones, I'll check out the others to see if they're interesting to me.

Out of my list, excluding the ones you have seen, "A Sign of Affection" was my favorite. I am currently reading the manga as well, and I am enjoying that too.

This will probably be my next watch

I'll probably give it a shot, thanks!

I want to eat your pancreas - sad movie

call of the night - fun cute amazing music amazing visuals lofi vibe pretty color palette

weathering with you - sad movie

horimiya - actual progression

my dress up darling - cosplay

more than a married couple but not lovers - pretty color palette, cute, love polygon
tomo chan is a girl - comedy, don't remember how far they progress but it was good
giji harem - actual progression
Dusk Maiden of Amnesia - kinda mid but still cute
Tamako Love Story - mid movie but cute
Scum's Wish - not bad, heavy on sexual stuff, bit depressing/sad
quintessential quintuplets - the overall series and story I enjoyed but be warned that the ending is heavily disliked and might piss you off
Natsu e no Tunnel, Sayonara no Deguchi - good movie with cool concept but honestly not long enough for it to be very good IMO
Insomniacs After School - pretty chill, more serious tone iirc

Watched the 3 eps of Blue Box, very good anime. I love the art style.
