Do you ever poop and browse hackforums? Or do you just sit there and think?

I browse HF. I'm doing it now and I hope you are having a good day. The guy in the stall next to me has been scatching his leg for close to a minute. Its a little unsettling.

Lmao no I usually browse ebay when I'm on toilet

Purgatory - October 2, 2024, 6:21 am

Yes I do, don't be ashamed brother haha. I be dropping a fat load and just browse through HF

Epic - October 2, 2024, 6:24 am

Unfortunately in the bathrooms at my work I can't get wifi OR data, so no internet browsing while pooping. However, I'm sitting at my desk right now, browsing away on my phone, lol.

It is honest work.

Boss makes a dollar, I make a dime, that's why I hack forums on company time.

Confound - October 2, 2024, 6:47 am

I browse at work often, even if I shouldn't :O

Sometimes on the toilet yeah lol.

SuseGD - October 2, 2024, 5:58 pm

No, I don't do that, interesting question haha. Whenever I do get some free time, though, I always check out what's happening on HF.

Charlie Sheen - October 2, 2024, 6:34 pm

I browse it no matter where I'm at. Sometimes I hide the logo though.

absolutely, and why wouldn't i? that's prime HF time.

diablospartan - October 3, 2024, 6:36 am

Well sometimes and not all the time .sometimes i found myself doing that

Jake Johnson - October 21, 2024, 1:18 pm

Sometimes I do but usually I just scroll through my social feeds.

TheGoldenRelik - October 21, 2024, 1:20 pm

No f*** way. One IP to share is more than enough

ethanwonggg - October 21, 2024, 1:51 pm

No, I usually watch instagram reels.

DanielZ - October 21, 2024, 3:53 pm

Sometimes I put music if it makes noise

2xTheTap115 - October 22, 2024, 11:31 pm

It happened to me many times, I was not limited to just browsing the forum. Over time, I discovered the pleasure of playing flip during longer sittings on the toilet ?.

Nettspend - October 22, 2024, 11:31 pm

Work and work toilet! lol

bronzegods - October 23, 2024, 12:19 am

TMI. I dont see how knowing how others do their business can alter your life.

Artisan - October 23, 2024, 12:28 am

I try to avoid it as much as possible.

sharn - October 23, 2024, 2:58 am

I do not browse Hack Forums on the toilet at work.

Sometimes I take a few minutes to scroll through social media or catch up on blog posts.

Jinu - October 23, 2024, 3:24 am

I definitely browse while in there! Multitasking at its finest. It's funny how we find time to do everything, even in the most unexpected places. As for the guy next to you, that sounds a bit distracting. Hopefully he's just dealing with an itch and nothing more!

Chrome - *October 23, 2024, 3:54 am*

I havent been back to work since joining back to HF, I probably will though.

Blockonome - *October 23, 2024, 4:21 am*

I browse HF most places on this planet to be honest, the toilet is indeed one of those places.
