Thread: [\(NEW SOLANA AIRDROP\) Unlock the Future of Decentralized Compute!](#)

gatoprd - October 2, 2024, 11:40 am

We're excited to introduce Gradient Network — the revolutionary open layer for edge compute, built on Solana! As the world embraces decentralized computing, you now have the opportunity to get involved and earn rewards while supporting this groundbreaking initiative.

## ? Join the Movement: Build the Infrastructure of Tomorrow

Gradient Network is transforming the compute landscape by creating a decentralized, inclusive, and accessible network — no longer controlled by big tech. Our vision, powered by Sentry Nodes, puts the power of computing into the hands of everyday users like you.

By running a Sentry Node, you actively contribute to global connectivity while earning rewards. Lightweight, privacy-preserving, and capable of running with intermittent connectivity, Sentry Nodes are easy to set up, maintain, and benefit from.

## ? Earn Rewards with Sentry Nodes

You'll be compensated for your participation through two powerful mechanisms:

**Proof-of-Availability (POA) Rewards:** For every 10 minutes your node is online, you earn 0.25 points — rewarding uptime and network reliability.

**Proof-of-Connectivity (POC) Rewards:** Every 10 minutes, your node verifies its connection with another node through a "Tap," earning you 0.75 points for each successful connection.

But that's not all! You can also boost your earnings by referring others to join the network.

## ? Referral Bonuses & Account Boosts: Supercharge Your Earnings

For every new user you refer, you'll receive 20 points after their node reaches 72 hours of uptime. On top of that, you'll continue earning a 10% bonus on their POA and POC rewards — as well as bonuses from anyone they refer!

To top it off, you can accumulate Experience Points (EXP) by completing achievements, which boost your Account Status. As you rise through the ranks — from Iron to Diamond — your rewards can increase by up to 10%!

## ? Why Join the Gradient Network?

**Easy setup:** Run a node through our Sentry Node Chrome Extension and get started in minutes.

**Earn while you contribute:** Your participation helps maintain the reliability and security of a decentralized compute network.

**Build the future:** Join a movement aimed at making compute accessible and affordable for everyone, as the world moves toward AI and advanced digital services.

**Referral bonuses:** Invite others to the network and benefit from ongoing rewards for every referral.

## ? Get Started Today!

Sign up at <https://app.gradient.network/signup?code=609RTW> , download the Sentry Node Chrome

Extension, and start earning while contributing to the future of decentralized compute. Don't miss out on this opportunity to be part of a cutting-edge network and maximize your rewards.

ENTER CODE: 609RTW AND GET +3000 Exp FREE BONUS
