Thread: [Do You Still Play Older or Retro Video Games?](#)

Epic - October 2, 2024, 5:38 pm

Hello HF,

Does anyone still play their favorite old school, classic, or maybe even retro games? I'm a big fan of games from the late 90s into the early 2000s. Playstation 1 and 2, GameCube, and then into the Xbox 360 era. While not necessarily retro consoles, these were definitely a defining era in my opinion.

My favorites that I still play from time to time are the original Gran Turismo and Metal Gear Solid, Elder Scrolls Morrowind and Oblivion, Halo 2 and 3, and Rollercoaster Tycoon. Oh and let's not forget the runescape we all love (or hate?). All these were such revolutionary games at the time within their respective genres in my opinion.

Editing this post to say I completely forget about the NES before all of what I mentioned above... that one was an step forward for gaming to say the least.

I bought an SNES mini thinking that I would and I played it twice and never again. I have been wanting to get a sega dreamcast to replay this cop game I used to play back in early early 2000's.
