Thread: [\[Selling\] RU Corp Accesses](#)

Per\$0na - October 3, 2024, 6:08 am

Hi all members HF.

I sell access to RU companies (no, i don't sell access to companies in other countries).
I have access like - web shells, RAT bots and others.

All my accesses have corporative local network with local domain.
These accesses are sold only in one hands and are completely private.
Prices start from 500\$ per 1 access.

About details write me here in PM.

Guarantor, safe transaction is fully welcomed.
Checking by the forum administration of the goods I sell is also welcome.

I am providing vouch copy 1/1 for high reputation members.

Hi, i don't see rule in a rules about "you can't sell access to companies".
But thank you for your concern.

If the administration asks to delete this topic due to the impossibility of conducting such deals here,
I will do so without delay.

Happy hunting.

Hi, sure.

Yes, as I wrote earlier, I am ready to provide my material to the administration in order to avoid
doubts about my competence and my products.

Thank you for your question and interest in my topic.

Happy hunting.

I also want to inform you.

That I looked at your profile and you are clearly a respected person on this forum.

I would be happy to provide you with proof regarding my accesses, write me in personal messages for this. And i ready give 1 access to the online store in RU completely free of charge, for your honest and transparent review.

Thank you for your attention.

Seller gave me a vouch copy. Thank you very much.

Well it depends on your specific requests. Just ask him what you have in stock then he will show you.

I only have a small % of access btw. This is a vouch copy. Not asking for the full access as that will cost lot of money.
