Thread: [bidet vs wet wipes vs toilet paper](#)

I have heard that bidets are the standard in many parts of the world. I kind of want to get one.

What do you use?

Personally I do not feel clean until i have finished up with a nice cool wet wipe. Especially after a spicy meal the day before.

When i get a few dollars, i really am considering getting a bidet installed. It seems so much better.

I want to use a bidet so bad...

I think i know what you mean. There is a water source to use to clean yourself.

Bottle of water is the way to go.

Little learning curve.

We had a bidet installed by a now former roommate when we first moved here and I genuinely gave it a few chances, but I found it too uncomfortable and chose to stick with good old reliable toilet paper.

You basically just turn it on and adjust the settings, such as the power of the stream and even the angle, and you're bombarded with a steady flow of water directed at your behind. It shocked me at first because I didn't know she had it installed and I was just like, "wHaT dOeS tHiS dO?"

I lived in an asian country for about 5 months. Until this point only used regular toiletpaper but to combine it with the ass-shower is so good haha

Bidet, once you use that you can't go back.

Charlie Sheen - October 3, 2024, 3:03 pm

I go toilet paper. I don't like having a wet butt.

Yeah!! It's not a bidet to my understanding. Thats like a funny toilet no?

The ass shower is just a small shower gun close to the toilet. When I saw it as a kid I thought it was for women... that they needed it for something that I didn't understand

Why not just use the toilet paper in the first place? I gotta wipe twice as much now?

No no Mr. Sheen... Ass-shower then one piece is enough to collect the water

sharn - October 13, 2024, 12:05 pm

I stick with toilet paper. It is simple, does the job, and is easily accessible anywhere.

Epic - October 13, 2024, 12:35 pm

I go with toilet paper, every now and then I will use a wet wipe. I've never used a bidet before, so I

don't really know how those compare with toilet paper for me.

Vip?r - October 13, 2024, 1:12 pm

once you go bidet you never look back

TheGoldenRelik - October 13, 2024, 1:12 pm

Wet wipes > toilet paper > bidet.

But I still think that bidet is healthier in a medical perspective

rip - October 13, 2024, 10:29 pm

Used to be solely toilet paper, but after dating someone of asian decent i've happily transitioned to a bidet and wipes. Feel squeaky clean all the time.

Artisan - October 13, 2024, 10:51 pm

Always use a bidet or water to wash. I would never use toilet paper alone unless I am travelling.

Eran - October 15, 2024, 7:57 am

Toilet paper gang assemble

Jake Johnson - October 17, 2024, 11:00 am

I installed a bidet on my toilet about 1-2 years ago and it was the best thing I ever did! I feel so much cleaner by using water than using toilet paper.
