Thread: [Where are the League of Legends players?](#)

**jcole** - October 4, 2024, 6:13 pm

I'm always looking for more people to play with. We can take it serious or we can goof off. It's up to you! I play on the NA server and would love to expand my friends list. Come check it out.. If you're not familiar with League, I would not mind teaching you.

**Snowwy** - October 4, 2024, 6:32 pm

I have only tried LOL a handful of times and I just couldn't get the idea of it. Felt like a complete noob. I really did want to like it, maybe I should give it another go. Is it still as popular as it was?

I would consider it really popular, but that's my opinion.

I also tried the mobile game a few times. How do you like that one? Have you ever played?

I never did get into Wild Rift, but others who have tried it love it. I have heard of people playing the mobile game, but never the PC. I may be wrong, but I think League is in the range of 150 million players.

It ran pretty smoothly I remember on my mobile. It's just that games took a while and I don't always have time to be playing games on my mobile for that long.

What country do you live in? Maybe we can play League sometime together on the PC.

**Tyr** - October 5, 2024, 1:55 pm

I haven't played in like 4 years but I will give it a shot.

**ahw9n2io8wd9h** - October 5, 2024, 1:59 pm

I do play, but mostly ARAM. I'm on EU tho.

**Vip?r** - October 5, 2024, 2:07 pm

if you are not familiar with league I recommend you to stay far away from it don't let the really cool arcane tv show fool you into playing

Arcane is overrated.

It was cool cause of Fortiche Studios art style and the sound tracks.

Sounds good. My sleep schedule is all over the clock so I'm sure we will be able to work something out.

I work a lot, but am usually available for a game at least once or twice a day after I get off. I used to play with [Sky](#) a lot, but lately it's just whenever I can catch him not busy. I also used to play with [mention=5051324] almost everyday. He disappeared on me lately.. He's working a lot.

Yeh with work and other stuff getting in the way of stuff we really want to do sucks. Miss the days when I didn't have to worry about trying to fit in time to play video games that's for sure.

I know bro. I remember one year for Christmas I played Rust for 24 hours straight. The schedule of the unemployed gamer.

It's healthier to get out and be productive in society. Make some money and socialize with the world some.

I agree ten fold. I do miss those days, but it's also better for me to keep a routine of work. I used to spend way to much time online, and get nothing accomplished.

Lol, luckily for me my job I'm alone a lot of the times. If someone frustrates me, I'll just leave and go to another job site.

I enjoyed watching the animated show because I am a fan of the game itself.

I'm fan of the game as well, been playing since S2. Enjoyed the show, but hated it cause they had to undo years of lore for that garbage story. To me Fortiche studio and the soundtracks carried Arcane. Doubt I'll watch Season 2 though, looks garbage judging from the trailers.

I got accounts in EUW and EUNE sadly, used to play in NA like 8-9 years ago when the referral system was still live with Twitch and WW skin (might've been more time actually xD)

Been playing since about 2014. I used to be completely obsessed. If I was not at work or the gym, I was on my computer playing it. Sun up to sun down. Reading through every patch note, adjusting my build from there. Always adjusting runes per match. Dropping hundreds of dollars at a time for skins ?

I still play but maybe a couple of games a week.

Ill pm name

League was always a game I could never get into. That and SMITE.

I've tried both numerous times, but I just can't get behind the whole 3-lane gameplay style, it feels so repetitive for me.

I do LOVE the Arcane series though and can't wait for season 2!
