Thread: [What is something on your bucket list that you hope to accomplish in the next year?](#)

Skydiving has always been on my bucket list, and I plan to finally take the plunge next year.

The adrenaline rush and the view during freefall have always fascinated me and I want to turn that into reality.

What goals do you have in mind?

Recover from my burnout

Live in the apartment I bought 1 year ago but which is still under renovation

Finish my homelab to then apply as a SOC Analyst

Unfortunately the two last points are related to the success of the first

Keep expanding and growing my company.

The end goal is global reach with international hubs.

I need to come up with goals and refine them. I'll probably do that after Christmas

With the right plan and focus, I am sure you can make it happen.

Are you planning to invest, save, or spend it on something?

I'd like to travel somewhere new, and save some money. Not sure where I want to travel though, but I will figure it out. Good luck to everyone else on their goals.

I'd say my biggest thing on my bucket list is to get my business really booming and off the ground.

For my startup to achieve \$1,000,000 ARR. We have two presales and are soon giving access to about 50 beta testers.
