Already watched the first three episodes in theaters as a special event.

Pretty freaking wild, lol. It was not what I was expecting at all as I haven't read the manga.

I didn't care for a decent amount of the humor, but I liked the horror elements and animation quite a bit.

My original short review:

Talk to [Tsundere](#).

I saw this in a movie theater and I always purchase my digital content.

He should be able to locate what you need, however. ?
