Are there people who still play rocket league?

I do play sometimes yeah but stuck at gold, can't go above, maybe because I'm getting too old for videogames haha

I used to play years ago - it was a pretty fun game. I enjoyed it.

I'm in my 30's, I used to play when I was younger like between 23 and 26, however at that time players were also less skilled so it was a little bit easier to reach diamond / plat I guess

Used to play it daily for years.

Interesting concept, sadly playerbase fell gradually after EpicGames acquired the studio.

Not a surprise though, in 8 years since the game was released, they barely had any new content to keep players captivated.

Ye same thing for me, it is a fun game but they can't really change anything beside maps and cars
