Main deal sealed on HF convo :

<https://ibb.co/k27nXk0>

<https://ibb.co/DpPfBXD>

Meanwhile and for faster convo we were talking in tele (Which he provided through hf convo aswell) and as I sent the money the seller freaks out that he got hacked and lost my money talking some nonsense

<https://ibb.co/hFMN43d>

<https://ibb.co/cvdr2s5>

<https://ibb.co/c6vJ5Tr>

and after that comforts me saying he will pay the ammount to get my order done as this will not be an one time deal.

<https://ibb.co/hB5XFbM>

After that we move from answering to every single message to replying once a day avoiding me. (Check the dates)

<https://ibb.co/9g7gbKM>

<https://ibb.co/D1Nqj52>

PS. I have NOT a single problem with the seller and I was the one that asked for long term partnership and I'm still willing to BUT the deal should have been CLEARED by now and it hasn't .

I would like a refund if the service isn't complete by the end of tomorrow

PS : I CHECKED HIS LATEST POSTS AND HE REPLIED TO MULTIPLE THREADS TO SELL SERVICES OR ITEMS

LMAO that excuse was as bad as Disney's excuse for Palpatine coming back in Star Wars...

Seems you'll either be refunded or we will see a closed account soon. Hopefully Flyrect is transferring funds to crypto or asking friends to borrow the money if he did magically get hacked in the space between sending you the wallet address, having dinner and checking the wallet again.

Honestly bro for any service like that just use a middleman. Too much room for there to be a difference in opinion in the quality of the service provided too.

Having to safety middleman is the best option, but regarding the terms was clear.his recent post, hard all about selling random things so I think it was all about the hard dipping

Another scammer, not surprising. His excuses were horrible, and not even believable. He was better off just not replying after getting the money, rather then leading you on to believe he was going to complete the order. Normally I would say I hope you guys work things out, but it's pretty obvious he has no intention on fulfilling or refunding.

2015 account and reputation down the drain for less then \$300.. it's sad to see so many people going out like that.

Exactly what I was thinking ...

He replied once again it will be shorted Sunday or Monday but that's a lie as well I'll update the thread

Flyrect - October 12, 2024, 5:06 am

Will resolve this as soon as possible.

Sorry, but some things are out of my hand.

Malwhere? - October 12, 2024, 7:19 am

I hope you get your money back, Flyrect excuses were childish.

Hindsight is 2020 but never trust a stranger with 300 with no feedback.

"I am not in the mood to open hf now" ?

Looks like he's claiming that he will make things right, which I sincerely hope that he does make it right.. but I would be lying if I said that I didn't believe he did this on purpose. The whole non-chalant "the moneys missing" ... " my account got hacked" just wasn't believable. Things like that just don't happen randomly after someone buys something from you, and even in the small chance something like that did happen, he just conveniently happens to NOT have the money to refund or pay to start the service? Sorry, not believing it!

Wishing you the best with this.

Some things are out of everyone's hands, that's not a valid point.

If you can't deliver the service just send him the crypto back (Out of pocket)

He can't be blamed for you having issues on your PC.

B3A - October 12, 2024, 8:27 am

he stated that this would be resolved by Sunday Monday on Telegram.I sadly believe this is not true, but I hope so.

I couldnt get the order done within the time frame i promised him

My wallet got hacked during this period and cannot refund him immediately.

I'll get paid later this week and I will refund the 289\$ paid for this service by the weekend or Monday.

Sorry again for not being to deliver.

Hopefully this get sorted out for you Beta, he probably had no money until his pay so he stated that he suddenly got hacked so that it could be like a "loan" to him. I've seen this type of stuff many times and then they pay you back when salary hits.

Very unfortunate that some people can't even be trusted today for a small task.
