Thread: [What are you wearing on your wrist?](#)

Mr_Kh4os - October 12, 2024, 6:50 am

I am always curious if people prefer to always have something on like myself or if you don't wear anything at all?

I almost always have my apple watch on for convience sake it has LTE so when I go running I usually only wear that in case I need to answer.

Happy Saturday btw ?!!!

I hate wearing anything on my wrists. I was interested in the Apple Watch. But am worried about how secure it is to have a watch on my wrist connecting to my phone. Am I paranoid?

I just got the Apple Watch Series 10 a few weeks ago. This is my first Apple Watch and I love it. I have it on all the time. The only time I don't have it on is when I shower which is when I charge it. I never had anything on my wrist before so I wasn't sure how it would be adjusting to it. Sometimes I don't even feel it on that is how thin and sleek it is.

A hospital bracelet. Lol. Just kidding. Right now I don't have anything on my wrist. I don't wear a wrist watch, I actually don't even own one. I do have a couple gold bracelets though.

The teeth of my victims are embedded into my wrist.

Just a fitness tracker to keep an eye on my steps and activity for the day.

I don't wear a watch lately. I used to wear my apple watch everywhere, but that become obsolete when I moved to the pixel phone. I've been really wanting to get a nice rolex or something just don't have the funds for it now.

That's interesting. I'm pretty much the same. I always have my Apple watch with me for convenience, especially for productivity and staying connected. It's handy to have everything right there, for personal tasks. Happy Saturday to you too! ? How do you like the Apple Watch for running?

I used to wear watches frequently but slowly strayed away from them. I'd probably break them with my job.

Apple Watch for me.

I really enjoy it.

I'm wearing an old Swatch Irony watch. It's simple, classic and has held up over the years, definitely one of my favorites!
