Hby? Do you enjoy life, do you enjoy the ups and downs? Is your life filled with a purpose and meaning? Does pain have significant value for you?

I think iam going with it, dont love so much but without hate too

I try to enjoy the ups and downs of life and make the most of every experience. Finding purpose helps keep things in perspective, even when times are tough.

I have to agree with some here. I wouldn't say that I LOVE it. But I do enjoy it a lot. I love riding my motorcycle, I love going outside and I also love staying inside and spending time with my girlfriend. It's a love/hate relationship for sure.

Getting there but not quite there yet.

I'll come out and say it, I haven't experienced true happiness in a few years now. It's my own fault, dug myself too deep of a hole that I am now trying to climb out of. It will be okay tho :)

Overall things are alright. I could make a few changes to make myself happier, but those changes would have to be pretty drastic. Overall I am comfortable day to day. I have a lot to be thankful for, and a lot of good relationships. But I also struggle with anxiety and depression, but things are better than they used to be.

I am happy with the position I am at in life, however, I am not anywhere near where I'd like to be as I really haven't even been able to attempt any of my major goals yet. I graduate in spring with my third and final degree and then I can really start to chase my goals when it comes to my career.

Right now I am wasting my life trying to get the Ocktoberfest award.
