Hi guys

I am selling the following skins:

M4A1-S Blue Phosphor (FN)
Bayonet Doppler P3 (FN)
Hand Wraps Cobalt Skulls (FT)

Inventory available here:

<https://steamcommunity.com/id/84273/inventory>

I am looking for either crypto (eth, ltc, btc) or paypal (FF only). 88% of buff for crypto, 90% of buff for paypal

They are not gone. Sorry didn't take the fairly new steam update into account that skins are only visible after 10 days? The skins became tradeable yesterday.

I reckon you are able to see the skins through my tradelink:
