UltraexTrader - October 14, 2024, 2:10 pm

Greetings fellow Hackforums members !

I'm here to offer an opportunity to those of you that want to start earning living online.

For the past decade, I've been using the internet as a source for my income and I'm here to help you improve your financial situation. What I will offer you is probably one of the best things you've came across.

In this guide there are 2 private methods that we are working on.

The amount of money you can make doing them is well over \$5000 per month (5 digits are easily achievable) and the best part is- Those methods are working worldwide and require barely few minutes of work per day, which means that even if you're a working person, you can still easily earn with them !

You won't need any knowledge or experience in order to earn with my methods, I will guide you through everything.

You will be able to recover the cost of the method within few days of purchasing and make a really solid income every month that you can add to your budget.

In order to earn with my methods you will need to have:

- Discord account (That's a must)
- Crypto wallet
- Paypal/Revolut/Bank account (optional)
- 10 minutes per day

Upon purchasing you will receive daily support from me (Available 16 hours + per day)

You will also be added to a group with other people working on these methods which will make your experience even better !

The current price of the guide is \$400. The information I'm providing to you is extremely valuable and is worth thousands.

I guarantee that every customer will be able to earn thousands with my help every month.

Terms of Service:

- Upon purchasing you agree that you will not leak or share the information I will provide you to anyone.
- You agree to follow my instructions
- You agree to do the method exactly as I tell you (1 Of The methods can be easily abused really hard but if you don't do it properly you can risk the method getting patched, so you agree to do it my way)

Would you be willing to give a vouch copy to a reputable user like myself? I promise to post a lengthy and honest review of the method. You have 0 credibility here and a review from someone trusted can go a long way.

I just have a really reputable user who purchased the method from me and I will wait for his review. If potential customers are not satisfied with it, I will grant you a VC :)

I'm interested. Do I get a PDF of the method when I buy or is it like you teaching me over like Discord?

For now, I will teach people over Discord as I decided to start offering this about an hour ago and have yet not prepared it on pdf.

Anyway, both methods are really simple so it won't be an issue for anyone to understand them.

The fact that I recommend to use Discord is because I have a server with all my customers and I have made the guides with pictures + videos on the discord server so it's easier for everyone.

Current price is \$550 which involves me taking care of all investment costs required for the methods on your behalf.

Not sure why my original post was removed with the note: "Content deleted to prevent possible harm to our members. - Staff." In my view, it was an honest review of the method, and I avoided revealing any sensitive details about it.

That said, I still haven't seen any profit from the main method. The results seem heavily dependent on the seller, and I'm still waiting on their input. According to the seller, the secondary method is profitable and less reliant on them, but I haven't tried it yet since I don't have the necessary equipment.
