Thread: [Selling Twitter AI Mass Replies \(100K profile visits a week ! \)](#)

francdotexe - October 15, 2024, 8:48 am

We've got a Twitter mass-reply service that'll boost your engagement and impressions like crazy.

All you gotta do is just follow 150-200 accounts you want us to reply to when they post (your ideal audience)

Delegate us your account, and we'll handle everything (No Password needed !)

We'll post 2K–4K AI-generated replies daily, tailored to fit each tweet.

You'll hit 7fig impressions every week.

With X monetization, you'll make a solid chunk of cash back.

CVR? Hard to say—it depends on your targets/offer—but it's a ton of eyeballs, guaranteed.

Works well for anything (OF, Crypto, ETC)

Some data from orders I've ran here:

So you expect people to pay \$350 - \$1k and dont even show us any kind of preview or anything? Do you expect people here to be dumb or just buy without any kind of first thought?
