Thread: [If You could Time Travel, What era would you visit and why?](#)

Jinu - October 16, 2024, 4:09 am

Hello, everyone!

If you had the chance to time travel to any era in history, which one would you choose and why?

Would you want to witness significant historical events, meet influential figures, or experience daily life in a different time?

For me, I think I would love to visit the Renaissance period. The explosion of art, science, and culture during that time fascinates me, and I'd love to see the works of great artists like Leonardo da Vinci and Michelangelo firsthand.

What about you? Share your thoughts.

The Victorian period fascinates me and it would be interesting to talk to the literary greats of that era.

Hmmm, I think ancient Greece or Rome would be pretty neat. I also think it would be cool to watch a tribe of early humans trekking across the old world.

I'd like to say middle ages so I can be a genius, but I'd actually rather travel to 2008, get a job at McDonalds and everyone knows whats next.

Not gonna lie, going back to the middle ages would be crazy fun I bet. Although I wonder if you'd be convicted of witch craft or something because everyone would be thinking you're doing weird shit, lol.

I would definitely go back to the 60s or 70s, always felt like that was when I SHOULD have been born. Always wonder though if I would feel differently if I was born in a different timeline though.

Zzzzz this is why I don't sleep ?...

I would definitely go back and experience the dinosaurs.

Eran - October 16, 2024, 12:19 pm

Hmm, just take a peak 5 years from now to see if I've accomplished what I've set my mind to, and also the era before smartphones to experience what it's like.

I would go at the moment when Churchill was born and I would give his mother Socrates hemlock

Aeowulf - October 16, 2024, 5:53 pm

Going back to spend a day in ancient Rome or Greece would be amazing. Or Egypt and Babylon.

Pharaonic age will be my choice, because Pharaonic age excels in innovation, culture, architecture, and historical impact.
