Thread: [Exchange \\$3,500 in crypto currency.](#)

**Laughing Man** - October 16, 2024, 1:52 pm

Firstly right off the bat, to prevent abuse and scam/theft a MiddleMan will be used in this situation I do not care how trustworthy you are, I will only use a third-party if fees apply I will pay them. I'd request a staff member but, if unwilling as long as they are a trusted individual we can both agree on we will use them.

I need to exchange 1.2 ETH and some BTC, total amount of crypto is \$3,500 being exchanged.

Request Zelle, ACH bank transfer, Western Union wire transfer

@Omniscent@

are my preferred middlemen in that order, however open to other options.

This exchange pains me to do, but must be done due to the ongoing of legal bullshit with my brother and family.

Your exchange rates will be considered and I'll DM you requesting a contract be opened.

Under no circumstances should you communicate with me off-site. Site Chat/DM only, I do have impersonators and I will not be responsible for their actions.

[contract=tid]Start Contract[/contract]

If you send me links to off website sites, I will report you to the admins of HF. Again I'm not dealing off-site too risky and is a way for you to try to circumvent my request for ADMINS or OMM

In regards to what you're trying to exchange, you have \$3,500 in crypto... how much are you looking for in zelle? I can do this exchange for you, if the rate is right. I don't have a preferred rate, so keen to hearing how much you were looking for.

None of us are middlemen. Please use the link in my signature to find a middleman.

I'm definitely available for this [Laughing Man](#) if you need it.

Charlie Sheen doesn't MM, and I don't think Omni would do it either.

I'd be happy to ensure your exchange goes smoothly though brother. Just let me know if you'd like to proceed. ?
