What's your Favorite type of Music or Band?

Hello, everyone! I'm curious to know what's your favorite type of music or your go-to band or artist? Whether it's something you've loved for years or a new discovery, I'd love to hear what you're into. I'm always looking for new music recommendations!

I'm nostalgic right now and I like to listen rock/metal bands from the 90's / 00's, Korn, Slipknot, Static-X, Guano Apes, Sum 41, Blink 182, Green Day 75, ...

Other kind of songs that are more recent :

- <https://www.youtube.com/watch?v=SXh11mp-U4I>
- Flowindz, a french music maker, based on synth / 80's vibes in a Kavinsky Style, I really think that this guy will get a lot of success : <https://www.youtube.com/watch?v=Jh7pOEwpHLw>
- IVOXYGEN - Plateau, someone shared this artist few days ago on HF (don't remember who, I think it was related to Bodycam videogame) : <https://www.youtube.com/watch?v=sCwBXZJ9qQU>
- don't know the style of this one but it gives me a lot of energy : <https://www.youtube.com/watch?v=VYcTUUMQ-F0>
- More rock like : <https://www.youtube.com/watch?v=FZLILV18ut8>
- German electro/techno song ? <https://www.youtube.com/watch?v=BY1qkoUhcWQ>
- DLB - Telega, russian, I really like this band : <https://www.youtube.com/watch?v=tfvIROG35Dw>

That's a great mix of old-school rock/metal and some really interesting newer stuff. I love bands like Blink-182 and Green Day from the 90s era. Such a nostalgic vibe.

I used to only listen to Rap/Hip-Hop growing up. Now that is one of my least listened-to genres. My most two favorite genres at the moment are rock and country. I also like to listen to dance music.

I'm into alternative rock, especially bands like Arctic Monkeys and The Strokes. I like the mix of gritty guitars and catchy lyrics, it's great for any mood, whether you're chilling or needing some energy.

I'm very much into the R&B/Soul genres.
Big fan of the artist Gallant.

But I delve in many genres. Like Pikachu, I'm a big fan of Babymetal too!

Arctic Monkeys and The Strokes really capture that raw energy and clever lyricism. I love how their music can set the mood, whether you're relaxing or looking to pump yourself up.

But I delve in many genres. Like Pikachu, I'm a big fan of Babymetal too! R&B and Soul have such a rich, emotive quality! Gallant has an incredible voice, and it's cool that you enjoy Babymetal too—that's a fun mix! I love how diverse musical tastes can be.

Personally I love music in general and depending on the situation I listen to different genres, but if I should choose one of all Rock/Metal one of my favorite genres, as a band without a doubt the one I listen to the most is Metallica
