Thread: [How Do You Watch / Convert - Any Language Video to English Language Video ?](#)

Monkeey - October 19, 2024, 10:41 pm

Hello Friends,

I have collection of some videos that are in Russian Language. (Some other languages too).

I want to either have English Subtitles or get them converted to English Language through AI.

The preference would be to get English Subtitles as it is probably easier than converting whole video Language.

Can anyone point me in the right direction ? Any help will be appreciated.

Cheers everyone ?

I didn't tried myself, but saw one video on instagram about veed.io, check it out if it's the one you looking for your needs.

You could probably get some ai like claude to give you points/say what the video about
I am not sure if its possible to translate it with subtitles

D707 - October 19, 2024, 11:46 pm

Google some subtitle webs, and searching the title of your movies. For some popular movies, they have english subtitle for free download.

You could ask someone to translate it for you. There's a lot of people that speak Russian
