What is your budget? I have access to some stat accounts, they're not necessarily for sale.. but if the budget it right, I'm pretty sure they can be persuaded.

From your message, I get the impression they're very big. My budget is around \$1,000. Happy to have a chat if you feel this might align.

Hey. The size of the accounts vary, but they're high priority stats. 2 very common first names, 1 first would country name, and 1 popular object name. Unfortunately, \$1k wouldn't be enough to obtain any of them as people have offered more than that, and was turned down. Sorry.
