For me i have to say Hackers the movie its my all time favorite
as for shows i would have to say Mr Robot

What is your favorite?

Arrrrrghhh, of course Mr.Robot is amazing, the hacking scene are 95% of the time real, however I really like the movie called Hackers, from 1995 with Angelina Jolie. It has a specific vibe and style even if it's not realistic at all.

I also like a lot "Who Am I", not always realistic but I like the dynamic of the movie, the music tha have been used, the style of the movie, really good one in my opinion

Here is the trailer in case you didn't watch it, however I recommend you to go straight to the movie and not watch the trailer (it spoils a little bit) :

By the way, I've made a thread about movies and series about hacking, feel free to check :

Yes i love that Mr Robot the scenes are the tools/exploits that hackers use and everything Hackers does have a few realistic scenes like the rainbow series books and phreaking

I will check out "Who Am I" never heard it and also will look at the thread thanks

This guy just said everything I was going to say.

Mr. Robot and Hackers. Top tier.

Def. Mr Robot is the best one out there. Very realistic scenes

kazuma - November 3, 2024, 12:21 pm

It's probably ghost in the shell even though I know it's not such a polished movie

Alot of those out there ain't so realistic

Hect0r - November 8, 2024, 1:32 am

The TV series Mr Robot definitely, seen and reviewed the series several times, I like it too much.

Who Am I is very good plays in germany

TENET - November 15, 2024, 6:18 pm

Favorite movie The Matrix

The Pact - November 16, 2024, 12:33 am

"Who Am I", did not seem realistic but it has good music, and the style of it makes it interesting.

It has to be Silicone Valley. Absolute top notch peach of a comedy tech show.
