Thread: [Become a Cyber Cash King Make \\$5,000 - \\$10,000 A Month Online \[3 Methods in 1 Ebook\]](#)

Nit0 - October 22, 2024, 2:19 pm

If you are on the Internet right now you have the potential to earn a tremendous amount of money on a monthly basis doing a couple of simple things.

The only thing that is holding you back is the knowledge that you currently have.

If you are not earning \$5,000 - \$10,000 a month it's simply because you were not put onto the right system & methods.

You see, the school system & your employer wants you to continue to trade your time for money.

We all know where you will end up if you do that.

Look around you. Not many people make it from a JOB these days.

Most end up quitting their job every so often just to find another one that they hate just as much.

If you want to make more money than people around you, you need to think & operate differently.

That's where Cyber Cash King comes in.

Cyber Cash King is an exclusive ebook created by me that offers not just 1 or 2 ways to make money, but 3 different methods all in 1 ebook.

You might be wondering if these methods are whitehat, greyhat or blackhat?

I have come up with a method for everybody.

Whether you're a white hat guy looking to make a legit business & scale it up, I got you covered.

If you are more of a grey/blackhat person there's a method in there for you as well. 3 methods all in 1 ebook!

All three methods do require a bit of an investment to get going (ranging anywhere from \$20 - \$80) depending on the method you choose.

This all sounds good, but how much can I earn?

You can seriously earn over \$10,000+ a month if you take things seriously & treat it as a real business.

How Do I Get Going? The Ebook has 2 different versions.

1) The Basic version of Cyber Cash King includes the .PDF instant download.

No updates or support are offered with the basic version. If you have a question and need support I'd recommend you get the Elite package.

Price is \$300 & Payment is accepted via BTC/ETH.

2) The Elite Package of Cyber Cash King includes lifetime updates & support via PM system for life. If you have a question or need help you could PM me on site and I would reply to you & offer assistance in any way possible.

Price for this is \$550 & Payment is accepted via BTC/ETH.

FAQ:

Q: Does this involve e-whoring?

A: No, it does not.

Q: Does it have anything to do with the stock market?

A: No, it does not.

Q: Can it be done by anyone in the world?

A: Yes! These methods could be performed by anyone in the world as long as you are a good English writer/speaker & somewhat tech savvy you should be able to follow the steps.

Q: Do you accept Paypal?

A: No, not at this time.

Q: Is investment required?

A: Yes! For all methods you would want some money to get it going. At least \$20 is recommended. If you have more it will help you to scale the other methods quicker & easier.

Q: Does this involve re-selling in-game currency or anything to do with Crypto trading?

A: No, these methods do not revolve around selling in-game currency. They have nothing to do with Crypto trading.

Q: What sort of skills do I need to complete these methods?

A: The ability to read, write, follow instructions & being technical with computers won't hurt you as well.

Q: Is there any refund guarantee?

A: No, there is not. Your success is determined by a number of factors including your dedication, willingness to perform the methods, consistency & a couple other things. Once you buy the ebook you will learn the methods and I am not able to take that information away from you, so there is no refunds.

Q: What's the difference between the Basic & The Elite Package of Cyber Cash King?

A: The basic doesn't include lifetime updates or support. The Elite Package allows you to get updates & support via PM. As the Elite package gets updated you will have the ability to download the newer version.

Q: Do I need a powerful computer or any special programs?

A: No, you don't need a powerful computer or any special programs.

Q: Will I have to pay taxes on these earnings?

A: I'm not a qualified tax expert but depending on where you are located in the world you might have to. There might be ways to avoid this.

Q: How will I get paid?

A: Usually you will get paid in US dollars via check, bank wire, etc. You could also at times receive Crypto. (Depends on the method)

Q: I have another question that is not answered here in the FAQ.

A: Please reply to the thread or PM me on here. I'll take a look at your question and answer as quickly as I can.

Q: How time consuming are these methods?

A: Well there are 3 different methods. Some will require more time than others. The whitehat method is time consuming as it's a legit business type of idea. They all require a good amount of time. This is not like a get-rich quick scheme or anything, you will have to put in effort/work to make the money. If you don't have time (a few hours per day) this isn't for you. This is something where the more you work the more you could earn once you get a hold of things.

Q: Can I get a vouch copy?

A: Sorry, no vouch copies at this time.

Q: Can I talk to you on Discord or Telegram?

A: I do all deals on site for safety & security. You will be starting a contract & paying through crypto all on site. Anyone that says they are me on Telegram or Discord is an impersonator and I can't be held liable for anything that occurs.

Q: Can these 3 methods potentially get saturated over time?

A: Yes unlike every other HF thread that says no their method will last 1000 years and nothing bad can happen lol. In theory, anything could get saturated if enough people do it. That's partly why the price is high, it's to prevent everyone from getting their hands on this very special information. If this was \$9.99 and everyone bought it and did it, it could increase competition & thus you would potentially make less money. Not many people are willing to invest in themselves when it comes to information & methods, will you be different than the rest?

Thanks for the reply.

There's 3 different methods.

They are about re-selling services like SEO & other things of that nature.

Also the third method is a twist on affiliate marketing.
