What's your favorite social media trend so far? There has been hundreds of them that I can remember.

Mine for this week would be "when you show your mom a TikTok and she keeps on asking if you know them" ?

None, I hate that shit. If I had to choose, it would be the ones where it plays the naughty tiktok music and you film your girlfriend to see if they try to look at what you're watching.

None. I don't like TikTok or the culture. That's why I'm not on it as well. It's a choice I made for my sanity and peace.
