Thread: [PULSE - NEW GROUP/ - GAMING - APPLY NOW!!!! - PERSONAL LIFE - RECRUITMENT](#)

Chrome - October 23, 2024, 10:10 am

Welcome to Pulse—Where gaming meets real life! Join us for thrilling sessions, discussions on social issues, fitness, and mental health. Whether you're here to game or grow, Pulse is your space to connect and thrive. Let's keep the beat going!

USERBAR

STARS

Concept

Pulse will be broken down into two main sectors, one will be for personal life and the other will be for gaming.

Gaming

The gaming division will serve as a major part of the group and will be an inclusive segment that will bring the whole HF community together. There will be giveaways, prizes, competitions and tournaments. A lot of this will roll out before the Christmas period. We will also run member only competitions and tournaments as well. We would also love to host tournaments between groups. This would require some group owner cooperation and negotiation, which I believe could be very exciting!

Personal Life

The personal life sector will operate very similarly to an old SF that I used to run called [Wallflowers](#) which from memory was a very successful sector and gained a lot of notoriety and traction. There is a list of topics that this sector will cover. The below areas will be the group's main focus, but we may diverge into additional sub-forums as well, depending on activity.

Personal life topics:

Innuendo
Vices
Health
Fitness

Current Requirements

No scammers, this means you must not have any active or unexplained deal disputes.
Must be active and post in sub-forums or discord.
Respect to other members. Flaming will not be tolerated.
Minimum account age is 3 months.

WANT to join Pulse?

Application

There are no official application questions for this recruitment round. Instead, briefly describe what you can bring to the group and illustrate how you can help build a certain section. Let us know what topics out of what was discussed you think you will fit into and why. I will select adequate applications and send these members a request to join VIA PM if you have been accepted.

Game - October 24, 2024, 11:25 pm

This is nice!

I'm a gamer and that would be my main playing field in the group but I do like to talk about life and other aspects of it.

I'd love to join and if you're looking for a leader I'd love to fill a spot there too. I've never been a leader in a group here before and would love to give it a try and put some real effort into a group.

I don't make much money so I don't have much to offer in terms of giveaways, etc; but I can offer time and activity and my brain for ideas, etc.

Otherwise, best of luck with this group, I love the look.

TheMadCyborg - October 24, 2024, 11:39 pm

This look awesome!

I massive into Gaming myself.

Mainly playing Warframe these days unless a new game peaks my interest or I return to a classic.

Started a new playthrough of BL3 the other day to get back into the drill before BL4 late next year (hopefully).

Obviously can't join for a wee while as I only found HF a couple of day ago but look forward to being able to join some time@

Hey, I would love to apply for the group. I've been gamer all my life and I think I will fit really well in your gaming space.

About the vices and fitness topics I can also contribute a lot, as I have over decade of experience with drugs and gyms.

Will be happy to join you and make new friendships with you guys :)

Syndicate - October 25, 2024, 11:01 am

If you'd have me, I'd like to join Pulse. As we discussed previously, I'm in the middle of creating my own Minecraft server for me and my gf to hang out and have some chill gameplay on. I've been playing PC games for probably about 20 years or so. I started off playing RuneScape back in the day when I was about 9 years old.

I have experience running/managing Minecraft servers, Garry's Mod servers, somewhat creating forums, 7 Days to Die, Valheim.. etc. Plenty of servers for me and my friends :)

Clue - October 27, 2024, 7:03 am

Hey Chrome, would love to put my interest in joining Pulse forwards.

Like many others here, gaming has been a big part of my life from a very young kid and still play a lot today to escape the dramas of real life (while juggling a 9-5 lmao)

I thoroughly enjoy competitive games and even chill games to wind down in the evening and play a lot with childhood friends and even my brother.

I love talking with new people, getting to know them and networking as at the end of the day, it's not what you know, but who you know and hope I can elevate the sense of community within Pulse.

It would be a privilege to join and hopefully forge connections for many years.

Thank you for your time good sir.

Hey,

Consider this post as my application to become a member.

1. I do play games. This month I got bored and thus, investing my time into those old retro games like : Super mario, Contra, Max Payne (repeating part 2).

2. I am a lifestyle content creator and thus I stay productive by sharing lifestyle tips (blog, instagram reels, youtube) that helps people.

3. I seem to be a good fit in the group and would like to meet like-minded people and share my knowledge and tips too.

Thank you [Chrome](#)

Weece's Application for Pulse

I am applying for Pulse as it seems to be the most fitting group on the site for me. Although I don't

know any members very well yet I will be spending a lot more time on the site now that I have managed to find my account again. From what I can bring to the group in the Personal Life part I'm not much of a fitness person at all but I am a chef. I'd be up for hosting cooking contests and other things of the sort that we can think of. Anything cooking related I suppose that's personal life, and of course we all have vices so I can certainly engage in conversations about them.

Gaming though, has always been a great passion of mine. I've been gaming since I was a small child, with games like Counter Strike Source, Freelancer, HALO 1, Call Of Duty 2, Command and Conquer etc... I also have been told about a project the group is currently working called HackerCraft, I have a lot of experience in Minecraft having owned many of my own servers and custom made plugins for many others so any help there I can happily give. Any gaming projects or competitions the group has in mind or needs help coming up with I would definitely be involved in as much as I could and would give whatever I can to the group and their projects.

Appreciate you giving me the chance to apply, if I don't make the team I wish you all the best of luck.

Cheers, Weece.

What I bring to the table is experience because I'm such an old fuck. Hardships, break-ups, dating, work, family, all the emotions, drug use (mostly psychedelics, weed, and alcohol), staying safe (never been arrested), owning a company, and just all around chatting/advice/debating ect... ect...

Other fields I'm decent enough in are things like GFX art, organization, top level management, and telling people when their ideas are complete shit and showing them why it is so.

First off, I just want to say how incredible it is to see the interest in Pulse and the passion so many of you have shown in your applications. As one of the leaders of Pulse, I can confidently say that this group is about more than just being part of something—it's about making a real impact here on

HackForums.

To those who've applied: we're looking for individuals who embody our core values—collaboration, engagement, and the drive to elevate the HF community. Pulse thrives on activity and contribution, so if you've got the energy to bring your skills and ideas to the table, this is the group for you.

If you're reading this and thinking about applying, don't hesitate. Whether you're into gaming, personal growth, or community-building, Pulse has a place for you. Show us what you bring to the team, and let's grow together.

To everyone already part of the journey: let's keep pushing forward and showing the HF community why Pulse stands out.

A post I made looking for a group, if you guys would have me here is a little about myself. Thanks so much for your time!

Hey everyone!

I'm a PC and Xbox gamer with a deep passion for helping others and being part of something bigger than myself.

While I may not have a specialized skillset, what I lack in expertise, I more than make up for with dedication and heart. I'm the type of person who will go above and beyond to support anyone if I have the means. Whether it's lending a hand in-game, offering moral support, or contributing to the success of a team, I'm all in.

I also have a keen interest in finding new ways to earn money online, and I'm always eager to learn and share tips with others.

If you're looking for someone who is caring, reliable, and always ready to dive into new adventures, I'd love to connect and see how I can be a part of your crew!

Let's make something amazing happen together!

Looking forward to hearing from you!

I'm interested in joining Pulse, particularly the gaming division. I play games like CS2, GTA 5 and a lot more, and I've been hoping to find others to play with, especially for games like Minecraft.

I'll admit I'm not much of a fitness or health person, but gaming has always been a big passion of mine. I think I'd fit in well with the group and would enjoy connecting with others who share similar interests.

Thanks for considering my application!

USERBAR

STARS

Concept

Pulse will be broken down into two main sectors, one will be for personal life and the other will be for gaming.

Gaming

The gaming division will serve as a major part of the group and will be an inclusive segment that will bring the whole HF community together. There will be giveaways, prizes, competitions and tournaments. A lot of this will roll out before the Christmas period. We will also run member only competitions and tournaments as well. We would also love to host tournaments between groups. This would require some group owner cooperation and negotiation, which I believe could be very exciting!

Personal Life

The personal life sector will operate very similarly to an old SF that I used to run called [Wallflowers](#) which from memory was a very successful sector and gained a lot of notoriety and traction. There is a list of topics that this sector will cover. The below areas will be the group's main focus, but we may diverge into additional sub-forums as well, depending on activity.

Personal life topics:

Innuendo

Vices

Health

Fitness

Current Requirements

No scammers, this means you must not have any active or unexplained deal disputes.

Must be active and post in sub-forums or discord.

Respect to other members. Flaming will not be tolerated.

Minimum account age is 3 months.

WANT to join Pulse?

Application

There are no official application questions for this recruitment round. Instead, briefly describe what you can bring to the group and illustrate how you can help build a certain section. Let us know what topics out of what was discussed you think you will fit into and why. I will select adequate applications and send these members a request to join VIA PM if you have been accepted.

Great to see that applications for Pulse are open i would love to join the PULSE TEAM.

What I can contribute to the Pulse Community is an entrepreneurial passion and ability in building communities with inter-membership connection and relationship-building. I believe my startup and new technology launching experiences have helped me succeed within innovative and collaborative settings. This would enable me to give great value to the community as it would help to contribute and offer the best opportunities through event organization, community engagement, and project management for Pulse.

Preferred Sector: I would want to join the Gaming sector. Gaming has always been part of my life, and I love connecting with others by shared experiences and friendly competitions.

Topics of Interest: I am particularly interested in:

Competitions and Tournaments: I would love to organize and promote tournaments, ensuring that they run smoothly and that all participants enjoy themselves.

Community Engagement: I would love to have a community where people can come and share their experiences of gaming, tips, and strategies.

Community Engagement: I will be engaging actively in discussions, sharing my gaming insights, and motivating others to do the same.

In addition, I would love to be involved in organizing events such as game nights or themed tournaments to get the community together and develop.

Last but not least, I am genuinely excited about the opportunity to join the Pulse community. I look

forward to collaborating with all the member actively.

Thank you for considering my application.

Spam Assassin - December 18, 2024, 11:24 am

I do play games, I have been gaming on Nitando Switch, PC with RTX and xBox, I am not much into typing some long story to get into a group but if you want a gamer, you have one here, who is really good in gaming and does like to live a kids live when he has some time in his hand. Every single day I wake up, I work for 5-6 hours, then do some social bullcrap over internet, then go out and have a social live outside for 1-2 hours and come back home and get some family time for a few hrs, and finally at the end of the day at 9-11 PM I freshen out and have two-three drinks maybe four, 30 ML which is a very little cut in compared to someone who drinks to get drunk and read a book or two (few pages of them) and then go to sleep watching YouTube or Netflix. That's my daily routine unless I get some big orders from someone.

Edit: I forgot to say this, if I get accepted into this group, you can hope for a few gaming mods I

made myself as on my free time I do love doing those. And if anyone has a need for a overclock guy who is expert in this studio without burning out the hardware then I am your doctor at call. I have been doing OC for data centers and personal Gaming Machines for users who have budget PC with Good High Refresh Rate monitors and want smooth gaming at high FPS without burning out their hardware.

I helped a 1650 Guy to get 150FPS at a 175Hz monitor and he still been gaming for past 3-4 years now, without any issue, a good and stable overclocking. He plays 98+ at SpiderMan so that's a big achievement for a 1650. It's not a TI if you are wondering but works very great. I also do configure custom profiles for different GPU+CPU on Afterburner.

If you do have time then select me and I will give time for the gaming community here on HF, alongside, I will be happy to host a few gaming servers for HF if someone are interested into moderating them, for free of course.

Peace out!

“So one night I'm over at the Rio (Hotel & Casino in Las Vegas). They've got big suites over there, so I go over there with some buddies, and we got one of the suites, and we have some dinner, and

we start drinking. So, we're having some drinks at dinner and blah blah blah. It starts to ramp up, we're having a good time, and I make my way down to the high-limit room. We start gambling. And I continue to drink, having a blast. I end up leaving and going home that night, and I lost like (\$80,000). So I wake up the next morning. I'm like, 'F*ck, those motherf*ckers got me for \$80,000 last night.' So, I'm at work the next day, and the host (from the Rio) calls me and he says, 'Hey, Dana, are you coming back? Do you still need the room that you guys had?' I said, 'No, I don't need the room, but don't get too comfortable with my f*cking 80 grand. I'm coming back for it.' (There was) dead f*cking silence on the other end of the phone. And he's like, 'Dana, you lost \$3 million last night.'

'What the f*ck are you talking about? I only have a million-and-a-half-dollar credit line.' He goes, 'Yeah, you made us call the GM of the hotel, and you started calling him a f*cking p*ssy' and yada yada yada. And I went, 'Yeah, that sounds like something I would do.'"

This is a recruitment thread.

While you may feel like our focus doesn't align with your expectations, we've built Pulse as a space to inspire and grow together, whether someone is just starting out or is already an expert. Your comments seem more aimed at discouraging participation than uplifting the group or helping the community.

We're always looking for team players who want to share their knowledge and create a positive impact, not gatekeepers who want to divide people based on perceived skill levels.

If Fallen is the group you believe in, best of luck with your endeavors there. As for Pulse, we'll keep doing what we do building up HackForums one thread, post, and project at a time.

I'm currently deploying microservices and Kubernetes operators to provide dynamic services. The services are primarily written in Java/Spring Boot, while the operators are written in Golang using the Operator Framework. Although I work in an agile environment, I find that many organizations fall short of truly agile practices.

I'd love to join Pulse and connect with likeminded people for gaming and discussions on various topics. The group seems to consist of HQ members and the userbar looks very slick too.

I've been a active member of HF for a few years now. As you can see from my credibility rating that I've done business with many HF members and have built up a trustworthy reputation. I will help members of the group in any way I can and contribute to the success of the group with time, skills, and knowledge.

Thanks for considering.

Good morning/afternoon,

I'm highly interested in being a contributing member of PULSE. I have been a contributing member to HackForums for over 7 years. Some accomplishments I have made in the years of being a member is selling to the premium market, developing custom tools and software, and being a friendly member who helps others.

I'm an avid gamer, and game developer. I have been building Unity games since I was young. You can take a peek here:

I believe I fit the requirements to be a member, I may not be as active in the social threads of HF, but I believe I can and will make solid contributions to the group and to the entirety of HF.

Thank you for taking time out of your day to read my non-formal application,
Static

I know Pulse doesn't like me very much but I just want to commend them for the moves they've been making lately on this forum and their dedication to improving not only their own group, but the content on the forum.

I would like to join this group.

Hey Chrome, I would love to join Pulse. I have only been in 2 HF groups prior to this. I am a ex-semi pro gamer for League of Legends. I also have played a lot of other games but for fun. I used to program games as well. Currently I have taken a break from the hobbies, I am a advertising manager for an online game. I also do business IRL & run a shop for

upgrades/streaming/music/gaming services & more. I believe I am a good fit for this group & will give hella discounts for the boys!

I'm excited to join and contribute! I'm passionate about both gaming and personal growth, so I'd love to get involved in all aspects. I'm also really interested in the Health/Fitness discussions and can share tips and motivation to help others stay active and healthy.

Looking forward to being part of this awesome community!

I don't know if I am allowed back in but I would like to join to talk to some peeps. Tis a good group of lads and Pulse has put a lot of dedication into this community that I've been impressed by. I am still waiting for the Minecraft server but it's OK. Maybe when classes die down I can help. Anyway, I'd like to join back if I am allowed to so I can meet other gamers. Thanks. :D
