November 13th marks the date of the 30th anniversary of Warcraft.

Been hearing some rumors here and there.

I'm mainly interested in whether or not they're gonna talk about the patch for Warcraft III: Reforged.

Never tried Warcraft II, my first experience with the genre was Warcraft III: Reign of Chaos.

Spend less time on HF and you might just have the time for WoW.

Warcraft III: Reign of Chaos was a good game too! We used to play that a lot at lan parties.

Warcraft III, Diablo II and Counter-Strike 1.6 made the LAN parties

Nice! I pick up world of warcraft every few years and play for a couple months. Really a great game, in my opinion.

I bet they will do something cool for the 30 year anniversary. Warcraft update would be cool. I think they usually drop some sick mounts and cosmetics and such for some of the games as well.
