Thread: [FiveM Server Dumping](#)

Philip J. Fry - October 23, 2024, 4:25 pm

I'm looking to get a server dumped, anyone know someone they can point me in the right direction to? Not trying to dump myself and run the risk of getting banned off the server. They use FiniAC and are fully open to the public.

What do you mean by dumping of the server? Extracting all the contents?

Extracting all the contents?

Yeah like a full asset dump, for the client side, to get the config files for locations of things

You are looking for someone to exploit the site entirely huh? In other words.
